

The New School for Inspired Work presents

# Vision 1:

## Clarifying your Vision for Retirees

*Do you feel inspired about the next phase of your life?*

Retirement is an opportunity to choose, with your time and energy, to do what feels most meaningful to you. What might this be?

We all desire to feel purposeful and to know that we are valuable. And whether you are moving from paid work into a hobby, volunteer work, or your life's work, having a clear vision provides a direction to your path.

In this course, using guided exercises and facilitated discussion, we will explore a variety of themes intending to discover and clarify each person's unique vision for their life.
